Lahore, Pakistan | mujtaba77007@gmail.com | [LinkedIn](#) | [GitHub](#)

OBJECTIVE

Computer Science student at UET Lahore with hands-on Python and C++ experience, seeking an internship or entry-level role. Completed three basic real-world projects covering cybersecurity, attendance management, data analytics, and e-commerce inventory using Python. Eager to apply problem-solving skills in a professional environment.

EDUCATION

Associate Degree Program (ADP) in Computer Science
University of Engineering and Technology (UET), Lahore

March 2025 – Present
CGPA: 3.5 / 4.00

Intermediate (Pre-Engineering / F.Sc)
Board of Intermediate and Secondary Education (BISE), Lahore

Completed 2024

TECHNICAL SKILLS

Python: Data manipulation, file I/O, scripting, data analysis workflows (Beginner → Intermediate)

C++: Variables, loops, functions, basic OOP concepts

Microsoft Excel: Spreadsheet management, formulas, data formatting (Certified — Coursera)

Microsoft Word: Professional document creation and formatting (Proficient)

PROJECTS

Cyber Security Firewall & IP Audit System | Python

Academic Project

- Built a rule-based firewall simulation to filter and audit network IPs against configurable blocklists using Python string processing and file I/O
- Implemented logging to track suspicious access patterns and flag anomalous IP activity

Smart Attendance System and Science Class Analytics | Python

Academic Project

- Developed an automated attendance tracker with CSV-based persistent storage and a menu-driven instructor interface
- Processed and summarized student performance data; computed averages, top performers, and generated formatted summary reports

E-Commerce Product & Inventory Analyzer | Python

Academic Project

- Built a product catalog system with stock tracking, category/price search, low-stock alerts, and CRUD operations using dictionaries and lists

CERTIFICATIONS

- Introduction to Microsoft Excel** — Coursera
- Introduction to Critical Infrastructure Protection (ICIP)** — OPSWAT Academy
- Python for Everybody** (In Progress)
